To Whom It May Concern

Karen Raisbury was employed by Kier Plant Ltd. a major construction plant hire and fleet management operation from 30 October 2000 until 5 August 2013 at which time her position became redundant following the sale of the company by the Kier Group who wished to divest itself of non-core assets.

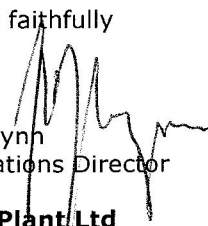

During this period of employment Karen progressed from her original engagement as a Plant Hire Administrator to the management position of Hire Administration Manager by virtue of her exceptional abilities in managing and organising the administrative functions of a plant hire business operating throughout the UK from eight regional depots.

Karen has always presented a 'can do' attitude coping with high levels of workload, challenges and deadlines associated with delivering month end trading figures to management. She has demonstrated an ability to work on her own initiative and interacts freely with her peers or subordinates as well as customers and clients.

Her knowledge and application of modern IT systems is well developed and she maintains the expertise to advise and instruct colleagues on system matters and trouble shoot complex operational problems.

To conclude I can state that Karen through her proven professionalism and commitment to hard work to be an asset for any organisation and I would recommend her to any organisation that may require her services.

Yours faithfully

J P Glynn
Operations Director

Kier Plant Ltd
